## Datasheet: MCA1757PE

BATCH NUMBER 1015

| Description: | MOUSE ANTI HUMAN MYELOPEROXIDASE:RPE |
| :--- | :--- |
| Specificity: | MYELOPEROXIDASE |
| Format: | RPE |
| Product Type: | Monoclonal Antibody |
| Clone: | 2 C7 |
| Isotype: | $\operatorname{lgG1}$ |
| Quantity: | 100 TESTS |

## Product Details

Applications
This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

|  | Yes | No | Not Determined | Suggested Dilution |
| :---: | :---: | :---: | :---: | :---: |
| Flow Cytometry (1) | - |  |  | Neat |

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested wokring dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.
(1) Membrane permeabilisation is required for this application. Bio-Rad recommends the use of Leucoperm ${ }^{\text {TM }}$ (Product Code BUF09) for this purpose.

| Target Species | Human |
| :--- | :--- |
| Species Cross <br> Reactivity | Reacts with: Dog <br> Does not react with:Rat <br> N.B. Antibody reactivity and working conditions may vary between <br> reactivity is derived from testing within our laboratories, peer-revie <br> personal communications from the originators. Please refer to refe <br> further information. |
| Product Form | Purified IgG conjugated to R. Phycoerythrin (RPE) - lyophilized |
| Reconstitution | Reconstitute with 1 ml distilled water |
| Max Ex/Em | Fluorophore |
|  | Excitation Max (nm) |

| Preparation | Purified $\lg$ G prepared by affinity chromatography on Protein G |
| :---: | :---: |
| Buffer Solution | Phosphate buffered saline |
| Preservative <br> Stabilisers | 0.09\% Sodium Azide |
|  | 1\% Bovine Serum Albumin |
|  | 5\% Sucrose |
| Immunogen | Human myeloperoxidase |
| External Database <br> Links |  |
|  | UniProt: |
|  | P05164 Related reagents |
|  | Entrez Gene: |
|  | 4353 MPO Related reagents |
| RRID | AB_322880 |
| Fusion Partners | Spleen cells from immunized mice were fused with cells of the mouse X63 AG8-653 myeloma cell line |
| Specificity | Mouse anti Human myeloperoxidase antibody, clone 2C7 recognizes human myeloperoxidase (MPO). MPO is an important component of azurophilic granules in neutrophils, being involved in microbicidal processes. The protein is a multimer of 2 heavy chains ( 55 kDa ) and two light chains ( 15 kDa ), the heavy chains being linked by a disulphide bond. |
|  | Mouse anti Human Myeloperoxidase antibody, clone 2C7 recognizes native MPO in |
|  | Western blots, and the heavy chain following boiling of the sample. Mouse anti Human |
|  | Myeloperoxidase antibody, clone 2C7 also recognizes recombinant MPO in western blots and weakly in ELISA. |
|  | Mouse anti Human myeloperoxidase antibody, clone 2C7 may be of value in the study of myeloid cells and myeloid leukaemias by flow cytometry following cell permeabilization. |
|  | Mouse anti Human myeloperoxidase antibody, clone 2C7 did not recognize rat MPO by ELISA (Patry et al. 2003). |
| Flow Cytometry | Use 10ul of the suggested working dilution to label $10^{6}$ cells in 100 ul . |
