Datasheet: MCA1887

BATCH NUMBER 172721

Description:	MOUSE ANTI FELINE CALICIVIRUS
Specificity:	CALICIVIRUS
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	FCV1-43
Isotype:	IgG2a
Quantity:	0.25 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			
ELISA	▪			
Immunoprecipitation			▪	
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)**This product requires antigen retrieval using heat treatment prior to staining of paraffin sections.**

Target Species	Viral
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative	<0.1% sodium azide (NaN_3)

Stabilisers	
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
RRID	AB_323081
Specificity	**Mouse anti Feline calicivirus antibody, clone FCV1-43** recognizes feline calicivirus, and does not cross-react with FIV or FeLV. Mouse anti Feline calicivirus antibody, clone FCV1-43 detects a 63kDa band in Western blots, representing the viral capsid protein. It may also be used in immunofluorescence techniques to detect viral infection.
ELISA	Mouse anti Feline calicivirus antibody, clone FCV1-43 may be used in an indirect ELISA or as the capture reagent in a sandwich ELISA with biotinylated clone S1-9 (MCA1886B) as the detection antibody.

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA1887
Regulatory	For research purposes only
