# Datasheet: MCA1940A700T

| | |
|---|---|
| **Description:** | MOUSE ANTI HUMAN CD19:Alexa Fluor® 700 |
| **Specificity:** | CD19 |
| **Format:** | ALEXA FLUOR® 700 |
| **Product Type:** | Monoclonal Antibody |
| **Clone:** | LT19 |
| **Isotype:** | IgG1 |
| **Quantity:** | 25 TESTS/0.25ml |

## Product Details

**RRID** AB_1101045

**Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|---|---|---|---|---|
| Flow Cytometry | ▪ | | | Neat - 1/10 |

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

**Target Species** Human

**Product Form** Purified IgG conjugated to Alexa Fluor® 700 - liquid

**Max Ex/Em**

| Fluorophore | Excitation Max (nm) | Emission Max (nm) |
|---|---|---|
| Alexa Fluor®700 | 702 | 723 |

**Preparation** Purified IgG from tissue culture supernatant prepared by Protein A chromatography.

**Buffer Solution** Phosphate buffered saline

**Preservative Stabilisers**

0.09% Sodium Azide
1% Bovine Serum Albumin

**Approx. Protein Concentrations** IgG concentration 0.05 mg/ml

**External Database Links**

**UniProt:**
P15391 Related reagents

**Entrez Gene:**

930 CD19 Related reagents

**Specificity**

**Mouse anti Human CD19 antibody, clone LT19** recognizes human CD19 also known as T-cell surface antigen Leu-12 or B-lymphocyte surface antigen B4. CD19 is a ~95 kDa type I single pass transmembrane glycoprotein expressed on follicular dendritic cells and B-cells during maturation but is lost on development into plasma cells (de Rie *et al.* 1989).

CD19 is the broadest lineage specific marker for B cells and functions as a B-cell co-receptor in conjunction with CD21 (Bradbury *et al.* 1992), CD9, CD81 and CD82 (Horváth *et al.* 1998). CD19 is implicated in the down-regulation of B cell growth and proliferation (Pezzutto *et al.* 1987).

**Flow Cytometry**

Use 10ul of the suggested working dilution to label $10^6$ or 100ul whole blood.

**Storage**

Store at +4°C or at -20°C if preferred.

| | |
|---|---|
| | This product should be stored undiluted.<br><br>Storage in frost free freezers is not recommended. This product is photosensitive and should be protected from light.<br><br>Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. |
| **Guarantee** | 18 months from date of despatch. |
| **Acknowledgements** | This product is provided under an intellectual property licence from Life Technologies Corporation. The transfer of this product is contingent on the buyer using the purchase product solely in research, excluding contract research or any fee for service research, and the buyer must not sell or otherwise transfer this product or its components for (a) diagnostic, therapeutic or prophylactic purposes; (b) testing, analysis or screening services, or information in return for compensation on a per-test basis; (c) manufacturing or quality assurance or quality control, or (d) resale, whether or not resold for use in research.
