Datasheet: MCA1960 BATCH NUMBER 165862

Description:	MOUSE ANTI HUMAN CD200
Specificity:	CD200
Other names:	OX2
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	OX-104
lsotype:	lgG1
Quantity:	0.2 mg

Product Details

Applications This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u>.

		0010.			
		Yes	No	Not Determined	Suggested Dilution
	Flow Cytometry	•			1/50 - 1/100
	Immunohistology - Frozen	•			
	Immunohistology - Paraffin				
	ELISA				
	Immunoprecipitation			•	
	Western Blotting				
	Where this product has n	ot been t	ested for	use in a particular tech	inique this does not
	necessarily exclude its us	se in sucł	n procedu	res. Suggested workin	g dilutions are given as
	a guide only. It is recommended that the user titrates the product for use in their own				
	system using appropriate			•	
	eyetem deing appropriate	riogative	, poola vo v		
Target Species	Human				
Product Form	Purified IgG - liquid				
Preparation	Purified IgG prepared by supernatant	affinity cl	nromatogr	aphy on Protein A fror	n tissue culture
Buffer Solution	Phosphate buffered salin	e			
Preservative Stabilisers	0.09% sodium azide (Na	N ₃)			

Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
External Database Links	UniProt: <u>P41217</u> <u>Related reagents</u>
	Entrez Gene: <u>4345</u> CD200 <u>Related reagents</u>
Synonyms	MOX1, MOX2
RRID	AB_321839
Specificity	Mouse anti Human CD200 antibody, clone OX-104 recognizes the human CD200 cell surface antigen, also known as OX2.
	CD200 is expressed by a subset of B lymphocytes, some endothelial cells and by neurons. The CD200-CD200 ligand system is of importance in the control of macrophage and granulocyte activation.
Flow Cytometry	Use 10µl of the suggested working dilution to label 10^6 cells in $100µl$
