

## Datasheet: MCA199B BATCH NUMBER 241014

| Description:  | RAT ANTI MOUSE IgM HEAVY CHAIN:Biotin |
|---------------|---------------------------------------|
| Specificity:  | IgM HEAVY CHAIN                       |
| Format:       | Biotin                                |
| Product Type: | Monoclonal Antibody                   |
| Clone:        | LO-MM-9                               |
| Isotype:      | lgG2a                                 |
| Quantity:     | 0.5 mg                                |
|               |                                       |

## **Product Details**

| Fusion Partners   | Spleen cells from immunised LOU/c rats were fused with cells of the IR983F rat myeloma cell line.   |
| Specificity       | Rat anti Mouse IgM, clone LO-MM-9 is directed against the mu chain of mouse IgM.  |
| ELISA             | This product may be used in an indirect ELISA or as a secondary reagent in a sandwich ELISA together with <u>MCA1293</u> as the capture reagent and and Streptavidin:HRP ( <u>STAR5B</u> ) as the detection reagent.  |

| Storage           | Store at +4°C or at -20°C if preferred.<br>This product should be stored undiluted.   |
|                   | Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.  |
