

Datasheet: MCA2050

BATCH NUMBER 166592

Description:	MOUSE ANTI HUNTINGTIN
Specificity:	HUNTINGTIN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	HDB4E10
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen (1)	▪			
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) Increased cytoplasmic staining, relative to nuclear, has been reported using formaldehyde as a fixative compared with acetone/methanol, see Wilkinson *et al.*

Species Cross Reactivity	<p>Reacts with: Mouse, Human, Rabbit</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Preparation	Antibody purified from tissue culture supernatant

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% sodium azide (NaN ₃)
Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Recombinant protein corresponding to amino acids 1844 - 2131 of huntingtin.
External Database Links	<p>UniProt: P42858 Related reagents</p> <p>Entrez Gene: 3064 HTT Related reagents</p>
Synonyms	HD, IT15
RRID	AB_322302
Specificity	<p>Mouse anti Huntingtin antibody, clone HDB4E10 reacts with an epitope corresponding to the HDB region (amino acids 1844 - 2131) of the huntingtin protein.</p> <p>Mouse anti Huntingtin antibody, clone HDB4E10 detects a ~350 kDa band on western blots but also detects smaller degradation products of huntingtin. The combined use of Mouse anti Huntingtin antibody, clones HDB4E10 (MCA2050) and HDC8A4 (MCA2051) demonstrate that huntingtin is enriched in neuronal cells in the brain (Jones 1999).</p>
Histology Positive Control Tissue	Brain

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA2050 10040
Regulatory	For research purposes only
