

Datasheet: MCA2059A647

# **BATCH NUMBER 1705**

Description:	MOUSE ANTI HUMAN CD88:Alexa Fluor® 647
Specificity:	CD88
Other names:	C5aR
Format:	ALEXA FLUOR® 647
Product Type:	Monoclonal Antibody
Clone:	P12/1
Isotype:	lgG2a
Quantity:	100 TESTS/1ml

# **Product Details**

# **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry				Neat

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

th: Rhesus Monkey body reactivity and working conditions may vary between specing the derived from testing within our laboratories, peer-reviewed procommunications from the originators. Please refer to reference formation.	oublications o

<b>9</b>	OSAB OSB4
Synonyms	C5AR, C5R1
RRID	AB_566908
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse X63 - Ag8 myeloma cell line.
Specificity	Mouse anti Human CD88 antibody, clone P12/1 recognizes the C5a receptor (C5aR) also known as CD88 or C5a anaphylatoxin chemotactic receptor 1. CD88 is predominantly expressed on cells of the myeloid lineage.
	When C5aR is preincubated with C5a, Mouse anti Human CD88 antibody, clone P12/1 does not bind to the receptor, as the binding site of P12/1 is located in the C5a binding region (Werfel et al. 1996 and Weinman et al. 2003)
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells in 100ul.

### Storage

Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

Storage in frost free freezers is not recommended. This product is photosensitive and should be protected from light.

Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

#### Guarantee

12 months from date of despatch
