

Datasheet: MCA2086PET

BATCH NUMBER 151897

Description:	MOUSE ANTI HUMAN CD18 (ACTIVATION EPITOPE):RPE
Specificity:	CD18 (ACTIVATION EPITOPE)
Other names:	INTEGRIN BETA 2 CHAIN
Format:	RPE
Product Type:	Monoclonal Antibody
Clone:	MEM-148
Isotype:	IgG1
Quantity:	25 TESTS

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry				Neat

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species	Human			
Product Form	Purified IgG o	conjugated to R. Phycoerythri	n (RPE) - lyophilized	
Reconstitution	Reconstitute	in 0.25 ml disilled water		
Max Ex/Em	Fluorophore	Excitation Max (nm	Emission Max (nm)	
	RPE 488nm la	ser 496	578	
Preparation	Purified IgG p	prepared by affinity chromato	graphy on Protein G	
Buffer Solution	Phosphate bu	uffered saline		
Preservative Stabilisers	0.09% Sodium Azide			
	1% Bovine	e Serum Albumin		
	5% Sucros	se		

Immunogen	Peripheral blood mononuclear cells.			
External Database Links	UniProt: P05107 Related reagents			
	Entrez Gene: 3689 ITGB2 Related reagents			
Synonyms	CD18, MFI7			
RRID	AB_1100976			
Specificity	Mouse anti Human CD18 (Activation Epitope) antibody,			

Mouse anti Human CD18 (Activation Epitope) antibody, clone MEM-148 recognizes an epitope on the human CD18 molecule that is hidden in the CD11/CD18 heterodimer on resting cells. Clone MEM-148 binds very weakly to resting peripheral blood leukocytes and strongly to all leukocytes upon cellular activation. The epitope recognized by Mouse anti Human CD18 (Activation Epitope) antibody, clone MEM-148 is also exposed during dissociation of the CD11/CD18 by low pH.

Flow Cytometry

Use 10ul of the suggested working dilution to label 10⁶ cells in 100ul.

Storage

Prior to reconstitution store at +4°C. Following reconstitution store at +4°C.

DO NOT FREEZE.

This product should be stored undiluted. This product is photosensitive and should be protected from light. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #20487 available at: https://www.bio-rad-antibodies.com/SDS/MCA2086PET 20487
Regulatory	For research purposes only
