<b>Specificity</b>	<p><b>Mouse anti Human CD253 antibody, clone 2E5</b> recognizes the 281 amino acid protein termed TNF related apoptosis-inducing ligand (TRAIL), also known as Apo2L.</p> <p>TRAIL is a cytotoxic protein closely related to Fas (CD95), which induces extensive apoptosis in a range of cell types. TRAIL induces apoptosis via the receptors DR4 and DR5. Most normal tissues are resistant to TRAIL induced apoptosis due to their expression of decoy receptors, DcR1 and DcR2, which antagonise TRAIL activity.</p> <p>TRAIL is expressed by cell lines, activated lymphocytes and on syncytiotrophoblast cells in first trimester pregnancy.</p> <p>This antibody neutralizes TRAIL activity.</p>
<b>Storage</b>	<p>Store at -20°C only.</p> <p>This product should be stored undiluted.</p> <p>Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
