

## Datasheet: MCA2171GA

### BATCH NUMBER 1601

|                      |   |
|----------------------|---|
| <b>Description:</b>  | MOUSE ANTI CHICKEN MHC CLASS II MONOMORPHIC |
| <b>Specificity:</b>  | MHC CLASS II MONOMORPHIC                    |
| <b>Format:</b>       | Purified                                    |
| <b>Product Type:</b> | Monoclonal Antibody                         |
| <b>Clone:</b>        | 21-1A6                                      |
| <b>Isotype:</b>      | IgG1  |
| <b>Quantity:</b>     | 0.1 mg                                      |

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

|                            | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry             | ▪   |    |                | 1/50 - 1/100       |
| Immunohistology - Frozen   | ▪   |    |                |                    |
| Immunohistology - Paraffin |     |    | ▪              |                    |
| ELISA                      |     |    | ▪              |                    |
| Immunoprecipitation        | ▪   |    |                |                    |
| Western Blotting           |     |    | ▪              |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

|                                 |   |
|---------------------------------|---|
| <b>Target Species</b>           | Chicken   |
| <b>Product Form</b>             | Purified IgG - liquid   |
| <b>Preparation</b>              | Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant |
| <b>Buffer Solution</b>          | Phosphate buffered saline   |
| <b>Preservative Stabilisers</b> | 0.09% Sodium Azide (NaN <sub>3</sub> )  |
| <b>Carrier Free</b>             | Yes   |

|                                       |  |
|---------------------------------------|--|
| <b>Approx. Protein Concentrations</b> | IgG concentration 1.0 mg/ml  |
| <b>Immunogen</b>                      | Chicken bursa cells  |
| <b>Fusion Partners</b>                | Spleen cells from immunized Balb/c mice were fused with cells of the mouse NS-1 myeloma cell line  |
| <b>Specificity</b>                    | <p><b>Mouse anti Chicken MHC Class II (monomorphic) antibody, clone 21-1A6</b>, recognizes a monomorphic determinant on the chicken B-L molecule, the chicken class II major histocompatibility complex (MHC).</p> <p>The level of B-L expression is reported to increase during the bursal phase of B cell differentiation (<a href="#">Veromaa et al. 1988</a>).</p>   |
| <b>Flow Cytometry</b>                 | Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells in 100ul   |
| <b>References</b>                     | <ol style="list-style-type: none"> <li>1. caecum and caecal tonsils of quail (*Coturnix coturnix japonica*). [Anat Histol Embryol. 48 \(5\): 476-85.](#)

---

**Storage** Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee** 12 months from date of despatch

---

**Health And Safety Information** Material Safety Datasheet documentation #10040 available at: <https://www.bio-rad-antibodies.com/SDS/MCA2171GA>  
10040

---

**Regulatory** For research purposes only

---
