

## Datasheet: MCA2272

<b>Description:</b>	MOUSE ANTI HUMAN DESMOGLEIN 2
<b>Specificity:</b>	DESMOGLEIN 2
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	6D8
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	0.2 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen	▪			
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation	▪			
Western Blotting	▪			1/100 - 1/1000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Antibody purified from tissue culture supernatant
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	<0.1% sodium azide (NaN <sub>3</sub> )
<b>Approx. Protein Concentrations</b>	IgG concentration 0.5 mg/ml

<b>Immunogen</b>	A-431 cell membranes.
<b>External Database Links</b>	<p><b>UniProt:</b>  <a href="#">Q14126</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b>  <a href="#">1829</a>    DSG2    <a href="#">Related reagents</a></p>
<b>Synonyms</b>	CDHF5
<b>RRID</b>	AB_2093429
<b>Fusion Partners</b>	Spleen cells from immunized Balb/c mice were fused with cells of the mouse NS-1 myeloma cell line.
<b>Specificity</b>	<p><b>Mouse anti Human desmoglein 2 monoclonal antibody, clone 6D8</b> recognizes human desmoglein 2, a single pass type 1 membrane glycoprotein with 4 extracellular <a href="#">cadherin</a> domains and six cytoplasmic desmoglein repeat sequences, with a predicted molecular weight of ~122 kDa and an apparent molecular weight of ~160-165 kDa, due to post translational modification. Desmoglein 2 is a core component of the <a href="#">desmosome</a> cell-cell junction between epithelial cells.</p> <p>Mouse anti human desmoglein 2, clone 6D8 has been used for the study of the interaction between desmoglein 2 and adenoviruses which exploit desmoglein 2 as a receptor for infection (<a href="#">Wang et al. 2013</a>).</p> <p>Mouse anti Human desmoglein 2 monoclonal antibody, clone 6D8 recognizes a region encompassing a portion of extracellular domains 3 and 4 (<a href="#">Kolegraff et al. 2011</a>) and does not recognize desmoglein-1 or desmoglein-3 (<a href="#">Wahl et al. 2002</a>).</p>
<b>Histology Positive Control Tissue</b>	Human skin
<b>Western Blotting</b>	Mouse anti Human desmoglein 2 antibody, clone 6D8 detects a band of approximately 165 kDa in A-431 cell lysates.

---

<b>Storage</b>	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.
----------------	---

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

---

<b>Guarantee</b>	12 months from date of despatch
