

Datasheet: MCA2290 BATCH NUMBER 151890

Description:	MOUSE ANTI HUMAN CD102
Specificity:	CD102
Other names:	ICAM-2
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	CBRIC2/2
Isotype:	IgG2a
Quantity:	0.2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	•			1/100
Immunohistology - Frozen				
Immunohistology - Paraffin			•	
ELISA			•	
Immunoprecipitation				
Western Blotting			•	

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species	Human	
Product Form	Purified IgG - liquid	
Preparation	Purified IgG prepared by affinity chromatography on Protein of supernatant	G from tissue culture
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide	

Immunogen Transfected COS cells expressing ICAM-2 cDNA.	Carrier Free	Yes	
External Database Links UniProt: P13598 Related reagents Entrez Gene: 3384 ICAM2 Related reagents RRID AB_566407 Fusion Partners Cells from immunised BALB/c mice were fused with cells of the Murine P3X63Ag.653 myeloma cell line. Specificity Mouse anti Human CD102 antibody, clone CBRIC2/2 recognizes human CD102, also known as intercellular adhesion molecule-2 (ICAM-2). CD102 is a glycosylated cell surface protein that is broadly expressed on most leucocytes and is strongly expressed by endothelial cells. CD102 interacts with the CD11a/CD18 (IFA-1). CD102 may play a role in lymphocyte re-circulation and T-cell activation (Yamashita et al. 2008). Mouse anti Human CD102 antibody, clone CBRIC2/2 is reported to inhibit interactions between CD102 and LFA-1 (De Fougerolles et al. 1991). Flow Cytometry Use 10ul of the suggested working dilution to label 10 ⁶ cells in 100ul. References 1. Xu, H. et al. (1996) Characterization of murine intercellular adhesion molecule-2. This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee	12 months from date of despatch
