# Datasheet: MCA2328GA BATCH NUMBER 164911

| Description:  | MOUSE ANTI DOG IgG2 |
|---------------|---------------------|
| Specificity:  | lgG2                |
| Format:       | Purified            |
| Product Type: | Monoclonal Antibody |
| Clone:        | CA4F1               |
| lsotype:      | lgG1                |
| Quantity:     | 0.1 mg              |
|               |                     |

## **Product Details**

| Applications                | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> . |             |            |                         |                      |  |
|-----------------------------|--|-------------|------------|-------------------------|----------------------|--|
|                             |  | Yes         | No         | Not Determined          | Suggested Dilution   |  |
|                             | Flow Cytometry   | •           |            |                         | ouggootou Bhation    |  |
|                             | Immunohistology - Frozen   |             |            | •                       |                      |  |
|                             | Immunohistology - Paraffin   |             |            |                         |                      |  |
