# Datasheet: MCA2330A647 BATCH NUMBER 160670

Description:	MOUSE ANTI HUMAN CD312:Alexa Fluor® 647
Specificity:	CD312
Other names:	EMR2
Format:	ALEXA FLUOR® 647
Product Type:	Monoclonal Antibody
Clone:	2A1
Isotype:	lgG1
Quantity:	100 TESTS/1ml

# **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.				
		Yes	No	Not Determined	Suggested Dilution
	Flow Cytometry	•			Neat
	Where this antibody ha necessarily exclude its the antibody for use in t	use in such pr	ocedure	s. It is recommende	d that the user titrates
Target Species	Human				
Product Form	Purified IgG conjugated to Alexa Fluor®647- liquid				
Max Ex/Em	Fluorophore	Excitation Max	(nm) l	Emission Max (nm)	
	Alexa Fluor®647	650		665	
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant				
Buffer Solution	Phosphate buffered saline				
Preservative Stabilisers	0.09% Sodium Azide 1% Bovine Serum Albumin				
Approx. Protein Concentrations	IgG concentration 0.05 mg/ml				

Immunogen	NIH-3T3 cells stably transfected with EMR2 (EGF1-5) cDNA.		
External Database Links	UniProt:         Q9UHX3       Related reagents         Entrez Gene: <u>30817</u> EMR2         Related reagents		
RRID	AB_566726		
Fusion Partners	Spleen cells from immunized Balb/c mice were fused with cells of the mouse SP2/0 myeloma cell line.		
Specificity	<b>Mouse anti Human CD312 antibody, clone 2A1</b> recognizes human EMR2, a member of the epidermal growth factor-seven transmembrane (EGF-TM7) family of proteins, which is closely related to CD97. EMR2, also known as CD312, is predominantly expressed on myeloid dendritic cells, monocytes and tissue macrophages. Various isoforms of EMR2 have been documented. The ligand for the largest isoform of EMR2 has recently been identified as chrondroitin sulphate, which binds to the fourth EGF-like module of EMR2. Mouse anti Human CD312 antibody, clone 2A1 recognizes the stalk region of EMR2.		
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells in 100ul.

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light.	
Guarantee	12 months from date of despatch	
Acknowledgements	This product is provided under an intellectual property licence from Life Technologies Corporation. The transfer of this product is contingent on the buyer using the purchase product solely in research, excluding contract research or any fee for service research, and the buyer must not sell or otherwise transfer this product or its components for (a) diagnostic, therapeutic or prophylactic purposes; (b) testing, analysis or screening services, or information in return for compensation on a per-test basis; (c) manufacturing or quality assurance or quality control, or (d) resale, whether or not resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad CA 92008 USA or outlicensing@thermofisher.com
