

## Datasheet: MCA2409A647T BATCH NUMBER 150865

Description:	MOUSE ANTI HUMAN CD178:Alexa Fluor® 647				
Specificity:	CD178				
Other names:	FAS LIGAND				
Format:	ALEXA FLUOR® 647				
Product Type:	Monoclonal Antibody				
Clone:	14C2				
Isotype:	lgG1				
Quantity:	25 TESTS/0.25ml				

# **Product Details**

Applications	This product has been reported to work in the following applications. This information i derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .

Target Species	Human						
Product Form	Purified IgG conjugated to Alexa Fluor® 647 - liquid						
Max Ex/Em	Fluorophore	Excitation	Max (nm)	Emission Max (nm)			
	Alexa Fluor®647	650	. ,	665			
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant						
Buffer Solution	Phosphate buffered sa	aline					
Preservative Stabilisers	0.09% Sodium Azide 1% Bovine Serum /	Albumin					

Approx. Protein Concentrations	IgG concentration 0.05 mg/ml
External Database Links	UniProt:         P48023       Related reagents         Entrez Gene:         356       FASLG         Related reagents
Synonyms	APT1LG1, CD95L, FASL, TNFSF6
RRID	AB_2100660
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the P3U1 myeloma cell line.
Specificity	<b>Mouse anti Human CD178 antibody, clone 14C2</b> recognizes the human CD178, also known as Tumor necrosis factor ligand superfamily member 6, Fas ligand (FasL), Apoptosis antigen ligand or CD95 ligand. CD178 is a 281 amino acid, a ~40 kDa single pass type-II transmembrane glycoprotein bearing a single <u>intracellular FasL</u> domain and member of the tumor necrosis factor family .
	CD178 is expressed by activated T lymphocytes and NK cells ( <u>Leite-de-Moraes and Dy 1997</u> ). The protein may exist as either a membrane bound or a cleaved soluble form ( <u>Garcia <i>et al.</i> 2013</u> ). CD178 plays an important role in T cell mediated cytotoxicity ( <u>Jodo <i>et al.</i> 2005</u> ). Binding of CD178 to Fas (CD95) results in the induction of apoptosis ( <u>Ju <i>et al.</i></u> 1995).
	Mouse anti human CD178 antibody, clone 14C2 is reported to recognize a conformation dependent non-blocking epitope on CD178 ( <u>Daburon <i>et al.</i> 2013</u> ).
Flow Cytometry	Use 10ul of the suggested working dilution to label $1 \times 10^6$ cells in 100ul.

Storage	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. This product is photosensitive and should be protected from light. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Acknowledgements	This product is provided under an intellectual property licence from Life Technologies Corporation. The transfer of this product is contingent on the buyer using the purchase product solely in research, excluding contract research or any fee for service research, and the buyer must not sell or otherwise transfer this product or its components for (a) diagnostic, therapeutic or prophylactic purposes; (b) testing, analysis or screening services, or information in return for compensation on a per-test basis; (c) manufacturing or quality assurance or quality control, or (d) resale, whether or not resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad CA 92008 USA or outlicensing@thermofisher.com
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/MCA2409A647T 10041
