Datasheet: MCA2433F

BATCH NUMBER 158799

Description:	MOUSE ANTI BOVINE CD44:FITC
Specificity:	CD44
Other names:	H-CAM
Format:	FITC
Product Type:	Monoclonal Antibody
Clone:	IL-A118
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			Neat - 1/10

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species

Bovine

Species Cross Reactivity

Reacts with: Camel

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC) - liquid

Max Ex/Em

Fluorophore	Excitation Max (nm)	Emission Max (nm)
FITC	490	525

Preparation

Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide 1% Bovine Serum Albumin
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml
External Database Links	**UniProt:** Q29423 Related reagents **Entrez Gene:** 281057 CD44 Related reagents
RRID	AB_1604795
Fusion Partners	Spleen cells from immunized BALB/c mice were fused with cells of the X63.Ag8.853 myeloma cell line.
Specificity	**Mouse anti Bovine CD44 antibody, clone IL-A118** recognizes bocine Phagocytic Glycoprotein-1 (PGP-1), also known as CD44, Hermes antigen, Extracellular matrix receptor III or HUTCH-1. Bovine CD44 is a 346 amino acid ~90 kDa type I single pass transmembrane glycoprotein containing a single Link domain, responsible for hyaluronan binding. Bovine CD44 is expressed by a wide range of bovine cells, including peripheral T and B lymphocytes, monocytes, granulocytes, platelets and early erythroid cells.
Flow Cytometry	Use 10ul of the suggested working dilution to label 1x10^6 cells in 100ul

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/MCA2433F 10041
Regulatory	For research purposes only
