

## Datasheet: MCA2488

<b>Description:</b>	MOUSE ANTI STREP-TAG IMMO
<b>Specificity:</b>	STREP-TAG IMMO
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	Strep-MAB
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Immunoprecipitation			▪	
Western Blotting		▪		

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Synthetic Peptide
<b>Product Form</b>	Purified IgG - lyophilized
<b>Reconstitution</b>	Reconstitute with 0.1 ml PBS. Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. For long term storage the addition of 0.09% sodium azide is recommended.
<b>Preparation</b>	Ig fraction prepared by ammonium sulphate precipitation from tissue culture supernatant
<b>Buffer Solution</b>	None present
<b>Preservative</b>	None present

## Stabilisers

---

**Approx. Protein Concentrations** IgG concentration 1.0 mg/ml after reconstitution.

---

**Immunogen** Recombinant protein SA-WSHPQFEK.

---

**RRID** AB\_609794

---

**Specificity** **Mouse anti Strep-tag Immo antibody, clone Strep-MAB**, also known as StrepMAB-Immo, recognizes Strep-tag II sequence WSHPQFEK, a widely used tag in protein expression applications.

This antibody demonstrates near irreversible binding of Strep-tag II, which is N-terminally extended by SerAla making the antibody particularly suited to use in assays such as ELISA and BiaCore.

This product is not recommended for the detection of Strep II fusion proteins in Western blot.

---

**Storage** Prior to reconstitution store at +4°C.  
After reconstitution store at -20°C.  
Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee** 12 months from date of despatch

---

**Acknowledgements** Sold under license of IBA

---

**Health And Safety Information** Material Safety Datasheet documentation #10305 available at: <https://www.bio-rad-antibodies.com/SDS/MCA2488>  
10305

---

**Regulatory** For research purposes only

---
