

Datasheet: MCA2495

BATCH NUMBER 1704

| Description:  | MOUSE ANTI HUMAN CD19 |  |
|---------------|-----------------------|--|
| Specificity:  | CD19                  |  |
| Format:       | Purified              |  |
| Product Type: | Monoclonal Antibody   |  |
| Clone:        | Bu12                  |  |
| Isotype:      | lgG1                  |  |
| Quantity:     | 0.2 mg                |  |

## **Product Details**

#### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                            | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry             | •   |    |                | 1/50 - 1/200       |
| Immunohistology - Frozen   |     |    |                |                    |
| Immunohistology - Paraffin |     |    |                |                    |
| ELISA                      |     |    |                |                    |
| Immunoprecipitation        | •   |    |                |                    |
| Western Blotting           |     |    |                |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| Target Species              | Human                                                                     |                     |
|-----------------------------|---------------------------------------------------------------------------|---------------------|
| Product Form                | Purified IgG - liquid                                                     |                     |
| Preparation                 | Purified IgG prepared by affinity chromatography on Protein G supernatant | From tissue culture |
| Buffer Solution             | Phosphate buffered saline                                                 |                     |
| Preservative<br>Stabilisers | 0.09% Sodium Azide (NaN <sub>3</sub> )                                    |                     |
| Carrier Free                | Yes                                                                       |                     |

| Approx. Protein Concentrations | IgG concentration 1.0mg/ml                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |  |  |  |

| Fusion Partners                | Spleen cells from immunized mice were fused with cells from the X63 AG8 653 plasmacytoma                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |  |  |
| Specificity                    | <b>Mouse anti Human CD19 antibody, clone Bu12</b> recognizes human CD19, a 95 kDa cell surface glycoprotein, which is expressed on cells of the B cell lineage and follicular dendritic cells but absent on plasma cells. CD19 is an important signal transduction molecule which is involved in the regulation of B lymphocyte development, activation and differentiation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |  |  |
| Flow Cytometry                 | Use 10ul of the suggested working dilution to label 1x10 <sup>6</sup> cells in 100ul.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |  |  |

| Storage                        | Store at +4°C or at -20°C if preferred.  Storage in frost-free freezers is not recommended.  This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |
