

Datasheet: MCA2553

BATCH NUMBER 163952

Description:	MOUSE ANTI MONKEY IgA
Specificity:	IgA
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	IgA5-3B
Isotype:	IgG1
Quantity:	0.25 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Immunoprecipitation			▪	
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Monkey
Species Cross Reactivity	<p>Reacts with: Cat, Rhesus Monkey, Dog, Human, Marmoset, Spotted Hyena</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	<0.1% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
Immunogen	Purified IgA from serum.
RRID	AB_770111
Specificity	<p>Mouse anti Monkey IgA antibody, clone IgA5-3B recognizes monkey IgA and does not cross-react with IgG or IgM.</p> <p>Clone IgA5-3B has been shown to detect secreted IgA in cat saliva and rhesus monkey jejunal washes.</p>
Western Blotting	MCA2553 detects a band of approximately 55kDa under reducing conditions.

Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA2553 10040
Regulatory	For research purposes only
