

Datasheet: MCA2559

Description:	MOUSE ANTI HUMAN CD263
Specificity:	CD263
Other names:	DcR1, TRAIL-R3
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	2B8
Isotype:	lgG1
Quantity:	0.2 mg

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further				
	information. For general	dations, please visit <u>v</u>	<u>/ww.bio-</u>		
	rad-antibodies.com/proto				
		Yes	No	Not Determined	Suggested Dilution
	Flow Cytometry	-			1/50 - 1/200
	Immunohistology - Frozen				
	Immunohistology - Paraffin				
	ELISA				
	Immunoprecipitation	-			
	Western Blotting				
	 Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are give a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls. Human 				nnique this does not
					ng dilutions are given as
					for use in their own
Target Species					
Product Form	Purified IgG - liquid Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant Phosphate buffered saline 0.09% Sodium Azide (NaN ₃)				
Preparation				m tissue culture	
Buffer Solution					
Preservative Stabilisers					
Carrier Free	Yes				

Approx. Protein Concentrations	IgG concentration 1.0mg/ml			
Immunogen	DcR1-Fc chimaeric protein.			
External Database Links	UniProt: <u>014798</u> <u>Related reagents</u> Entrez Gene: <u>8794</u> TNFRSF10C <u>Related reagents</u>			
Synonyms	DCR1, LIT, TRAILR3, TRID			
RRID	AB_906154			
Fusion Partners	Lymph node cells from immunized mice were fused with cells of the P3U1 myeloma cell line			
Specificity	 Mouse anti Human CD263 antibody, clone 2B8 recognizes human CD263, a ~60 kDa cell surface protein, which is otherwise known as decoy receptor 1 (DcR1). CD263 is a member of the tumour necrosis factor (TNF) receptor superfamily that binds to TNF-related apoptosis inducing ligand (TRAIL). As the receptor does not possess cytoplasmic death domains it cannot induce apoptosis, but instead plays an important role in inhibiting TRAIL-induced apoptosis. CD263 is expressed in normal tissues including heart, skeletal tissues and peripheral blood neutrophils, but weakly expressed in tumour cells. The 2B8 antibody does not inhibit DcR1 (CD263) inhibitory function in TRAIL-induced apoptosis. 			
Flow Cytometry	Use 10ul of the suggested working dilution to label 1×10^6 cells in 100ul.			
Storage	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.			
Guarantee	12 months from date of despatch			
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: 10040: <u>https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf</u>			
Regulatory	For research purposes only
