

Datasheet: MCA2613

BATCH NUMBER 167300

Description:	MOUSE ANTI HUMAN COMPLEMENT FACTOR B (Bb FRAGMENT)
Specificity:	COMPLEMENT FACTOR B (Bb FRAGMENT)
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	032B-32.15.1 (10-09)
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			
Immunohistology - Frozen	▪			
Immunohistology - Paraffin			▪	
ELISA (1)	▪			
Immunoprecipitation			▪	
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)Clone 10-09 binds to both the Bb fragment and complement factor B so is not suitable for all ELISA applications.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from ascites
Buffer Solution	Borate buffered saline
Preservative Stabilisers	0.1% Sodium Azide (NaN ₃)

Approx. Protein Concentrations	Current, batch-specific concentration 1.05 mg/ml
Immunogen	Human factor B.
External Database Links	<p>UniProt: P00751 Related reagents</p> <p>Entrez Gene: 629 CFB Related reagents</p>
Synonyms	BF, BFD
RRID	AB_2080002
Specificity	<p>Mouse anti Human complement factor B antibody, clone 032B-32.15.1 (10-09) recognises the Bb fragment of 90 kDa human complement factor B, present in blood serum. C3b associates with complement factor B, inducing conformational change which enables complement factor D to cleave the N-terminal of complement factor B, the Ba subunit, leaving the 63 kDa Bb subunit associated with C3b and forming C3 convertase. Subunit Bb is involved in the proliferation of preactivated B lymphocytes. Conversely, Ba inhibits lymphocyte proliferation.</p>
Histology Positive Control Tissue	Kidney from post streptococcal glomerulonephritis patients.

Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	Guaranteed until date of expiry. Please see product label.
