

Datasheet: MCA2644

BATCH NUMBER 164823

Description:	MOUSE ANTI HUMAN C7
Specificity:	C7
Other names:	COMPLEMENT COMPONENT 7
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	030-113.7.5.4
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Immunoprecipitation			▪	
Western Blotting	▪			
Functional Assays	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from ascites
Buffer Solution	Borate buffered saline
Preservative Stabilisers	0.1% Sodium Azide (NaN ₃)

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Purified human C7.

RRID	AB_2067432
Specificity	<p>Mouse anti Human C7 antibody, clone 030-113.7.5.4 recognises complement component 7 (C7), a 110 kDa glycoprotein present in the blood serum. The factor I domain of C7 binds the C terminus of the C5 alpha-chain, acting as a membrane anchor. This enables the assembly of the complement membrane attack complex (MAC) and consequent complement lytic activity. C7 deficiency is associated with increased susceptibility to recurrent infections, in particular by <i>Neisseria meningitides</i>.</p> <p>Mouse anti Human C7 antibody, clone 030-113.7.5.4 does not recognise membrane bound complement membrane attack complex.</p> <p>Mouse anti Human C7 antibody, clone 030-113.7.5.4 inhibits lysis of sensitised sheep erythrocytes.</p> <p>Removal of Sodium Azide is recommended prior to use in functional assays.</p>

Further Reading	<p>1. Thai, C.T. & Ogata, R.T. (2004) Complement components C5 and C7: recombinant factor I modules of C7 bind to the C345C domain of C5. J Immunol. 173 (7): 4547-52.</p> <p>2. Debard, A.L. <i>et al.</i> (2005) Fcγ3b and complement component C7 codeficiency in a patient with recurrence of fulminant meningococcal septic shock. Clin Infect Dis. 40 (11): 1679-83.</p>
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	Guaranteed until date of expiry. Please see product label.
