

Datasheet: MCA2673GA

BATCH NUMBER 155379

Description:	MOUSE ANTI AMPK ALPHA 1/2
Specificity:	AMPK ALPHA 1/2
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	34.2
Isotype:	IgG2a
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen	▪			
Immunohistology - Paraffin			▪	
ELISA	▪			
Immunoprecipitation	▪			
Western Blotting	▪			1/100 - 1/1000
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Drosophila
Species Cross Reactivity	<p>Reacts with: Human, Mouse, Rat</p> <p>Based on sequence similarity, is expected to react with: Vertebrates</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid

Preparation	Purified IgG prepared by affinity chromatography on Protein G
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1.0mg/ml
Immunogen	29 amino acid peptide within the N-terminal catalytic domain of Drosophila AMPK alpha.

Synonyms	AMPK, AMPK1, AMPK2
RRID	AB_1604623
Specificity	<p>Mouse anti AMPK Alpha 1/2 antibody, clone 34.2 recognises both the alpha 1 and the alpha 2 isoforms of AMP-activated protein kinase (AMPK). AMPK is a highly conserved heterotrimeric protein kinase found in all eukaryotes. The heterotrimeric complex exists as multiple isoforms and consists of a catalytic alpha subunit, which is stabilised by non-catalytic regulatory beta- and gamma- subunits. AMPK plays a vital role in maintaining cellular energy homeostasis and is activated by rising levels of AMP under conditions of hypoxia, ischemia, exercise, low glucose levels.</p> <p>AMPK may play an important role in the control of type 2 diabetes and metabolic syndromes. Recent studies suggest that AMPK functions as a suppressor of cell proliferation of both malignant and normal cells.</p>
Western Blotting	MCA2673GA detects a band of approximately 63kDa in rat brain cell lysates.
Storage	<p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
