

## Datasheet: MCA2691SBB810

|                      |  |
|----------------------|--|
| <b>Description:</b>  | RAT ANTI MOUSE CD4:StarBright Blue 810 |
| <b>Specificity:</b>  | CD4                                    |
| <b>Other names:</b>  | L3T4 ANTIGEN, LY-4                     |
| <b>Format:</b>       | StarBright Blue 810                    |
| <b>Product Type:</b> | Monoclonal Antibody                    |
| <b>Clone:</b>        | RM4-5                                  |
| <b>Isotype:</b>      | IgG2a                                  |
| <b>Quantity:</b>     | 100 TESTS/0.5ml                        |

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

|                | Yes | No | Not Determined | Suggested Dilution |
|----------------|-----|----|----------------|--------------------|
| Flow Cytometry | ▪   |    |                | Neat               |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| <b>Preparation</b>              | Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant                             |                            |                          |
| <b>Buffer Solution</b>          | Phosphate buffered saline   |                            |                          |
| <b>Preservative Stabilisers</b> | 0.09% Sodium Azide (NaN <sub>3</sub> )<br>1% Bovine Serum Albumin<br>0.1% Pluronic F68<br>0.1% PEG 3350<br>0.05% Tween 20 |                            |                          |

|                                      |   |
|--------------------------------------|---|
| <b>Immunogen</b>                     | BALB/c mouse thymocytes   |
| <b>External Database Links</b>       | <p><b>UniProt:</b><br/> <a href="#">P06332</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b><br/> <a href="#">12504</a> Cd4    <a href="#">Related reagents</a></p>  |
| <b>Specificity</b>                   | <p><b>Rat anti Mouse CD4 antibody, clone RM4-5</b> detects mouse CD4, a 55 kDa protein also known as Ly-4 and L3T4. CD4 is a single chain transmembrane glycoprotein which belongs to the immunoglobulin superfamily, and is primarily expressed on peripheral blood monocytes and tissue macrophages. CD4 is also expressed on a subpopulation of regulatory T cells (CD4<sup>+</sup>CD25<sup>+</sup>), which play a key role in the maintenance of self tolerance.</p> <p>Rat anti Mouse CD4 antibody, clone RM4-5 can be used for <i>in vitro</i> blocking of ligand binding, as well as <i>in vitro</i> CD4<sup>+</sup> T cell depletions.</p>  |
| <b>Flow Cytometry</b>                | Use 5ul of the suggested working dilution to label 10 <sup>6</sup> cells in 100ul. Best practices suggest a 5 minutes centrifugation at 6,000g prior to sample application.   |
