

Datasheet: MCA2718

BATCH NUMBER 146557

Description:	MOUSE ANTI CHLAMYDIA LPS
Specificity:	CHLAMYDIA LPS
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	CF 6J12
Isotype:	IgG2a
Quantity:	1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Western Blotting	▪			
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Bacterial
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
Buffer Solution	Phosphate buffered saline.
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein	IgG concentration 1.0mg/ml

Concentrations

Immunogen Elementary bodies from *C. trachomatis* strain SAF₂.

RRID AB_915244

Fusion Partners Spleen cells from immunised BALB/c mice were fused with cells of the NS0/U mouse myeloma cell line.

Specificity **Mouse anti Chlamydia LPS antibody, clone CF 6J12** recognizes a genus specific epitope within *Chlamydia* lipopolysaccharide (LPS).

LPS is a common feature of the outer envelope of gram negative bacteria, which acts as a potent endotoxin, triggering an innate immune response. Studies have shown however, that whilst the LPS of *Chlamydia trachomatis* does evoke an immune response, it displays only weak endotoxic activity when compared to that of other bacteria such as *Salmonella minnesota* or *Neisseria gonorrhoeae*.

Storage Store at +4°C or at -20°C if preferred.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
