

## Datasheet: MCA2733GA

<b>Description:</b>	MOUSE ANTI HUMAN MMP-1
<b>Specificity:</b>	MMP-1
<b>Other names:</b>	INTERSTITIAL COLLAGENASE
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	3B6
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin (1)	▪			
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. Sodium citrate buffer pH 6.0 is recommended for this purpose.**

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant
<b>Buffer Solution</b>	Phosphate buffered saline

<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> )
<b>Carrier Free</b>	Yes
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0mg/ml
<b>Immunogen</b>	Ovalbumin conjugated synthetic peptide corresponding to a region within the C-terminus of human MMP-1.
<b>External Database Links</b>	<p><b>UniProt:</b>  <a href="#">P03956</a>    <a href="#">Related reagents</a></p> <p><b>Entrez Gene:</b>  <a href="#">4312</a>    MMP1    <a href="#">Related reagents</a></p>
<b>Synonyms</b>	CLG
<b>RRID</b>	AB_2144296
<b>Fusion Partners</b>	Spleen cells from immunised Balb/c mice were fused with cells of the Ag8563 myeloma cell line.
<b>Specificity</b>	<p><b>Mouse anti Human MMP-1 antibody, clone 3B6</b> recognizes human matrix metalloproteinase 1 (MMP-1), also known as interstitial or fibroblast collagenase, a 469 amino acid, in the pro-peptide form, zinc-dependent endopeptidase responsible for degrading the extracellular matrix. MMPs are also involved in cell proliferation, migration, differentiation and apoptosis (<a href="#">Chen et al. 2013</a>). Most MMP's are synthesised as inactive zymogens and a propeptide region must be cleaved off before the enzyme becomes active (<a href="#">Nagase et al. 1992</a>). MMP expression is increased dramatically in a variety of cancer types, where it indicates invasive disease and a poor prognosis (<a href="#">Murray et al. 1996</a>).</p> <p>MMP-1 is one of the collagenases, capable of degrading collagens I, II and III, all main components of the interstitial stroma (<a href="#">Robichaud et al. 2011</a>). MMP-1 is overexpressed in invasive melanoma, colorectal and esophageal cancers (<a href="#">Langenskiöld et al. 2013</a>). MMP-1 has also been implicated in arthritis and may influence atherosclerotic lesion formation (<a href="#">Nikkari et al. 1995</a>). Additionally, MMP-1 has been implicated in the repair processes of the heart after myocardial infarction (<a href="#">Yarbrough et al. 2003</a>).</p> <p>Mouse anti Human MMP-1 has been used successfully for the detection of MMP-1 in gastric cancer by both Western blotting and immunohistochemistry (<a href="#">Murray et al. 1998</a>).</p>
<b>Histology Positive Control Tissue</b>	Colon carcinoma
<b>Western Blotting</b>	MCA2733GA detects a band of approximately 37kDa

<b>Storage</b>	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
<b>Guarantee</b>	12 months from date of despatch
