

## Datasheet: MCA2862

<b>Description:</b>	MOUSE ANTI HUMAN LEPTIN
<b>Specificity:</b>	LEPTIN
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	9C10
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	0.2 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			
Immunoprecipitation			▪	
Western Blotting			▪	
Functional Assays			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> )
<b>Approx. Protein</b>	IgG concentration 1.0mg/ml

## Concentrations

---

**Immunogen** Recombinant leptin.

---

## External Database Links

**UniProt:**

---

**Synonyms** OB, OBS

---

**RRID** AB\_1125329

---

**Fusion Partners** Spleen cells from immunised Balb/c mice were fused with cells of the Sp2/0 myeloma cell line.

---

## Specificity

**Mouse anti Human Leptin antibody, clone 9C10** recognizes human leptin, a 16kDa hormone that plays a key role in homeostasis, in energy intake and expenditure. It is produced by fat cells and the placenta. Leptin is a well known marker for obesity; the amount of leptin in the circulation correlates with the amount of fat tissue. Lack of functional leptin and leptin receptors lead to morbid obesity. However, leptin resistance is present in almost all obese humans, meaning that obesity is not necessarily due to a decrease in leptin, but rather to a decrease in the amount of leptin that reaches and binds to the leptin receptors in the hypothalamus.

Leptin has also been implicated in a number of other processes including immune function, neuroendocrine function, the adaptive response to fasting, blood pressure, bone formation, blood cell development, glucose homeostasis, fatty acid metabolism and reproductive function.

---

## Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee** 18 months from date of despatch.

---

## Health And Safety Information

Material Safety Datasheet documentation #10040 available at:  
10040: <https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf>

---

**Regulatory** For research purposes only
