

Datasheet: MCA3161Z

BATCH NUMBER 160315

Description:	MOUSE ANTI HUMAN HEMOGLOBIN SUBUNIT ZETA:Preservative Free
Specificity:	HEMOGLOBIN SUBUNIT ZETA
Other names:	HGZ
Format:	Preservative Free
Product Type:	Monoclonal Antibody
Clone:	3C4-1D5
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			0.1 - 10 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Approx. Protein Concentrations	Ig concentration 0.5 mg/ml
Immunogen	Recombinant protein corresponding to aa 1-143 of human Hemoglobin subunit zeta.

Fusion Partners

Spleen cells from BALB/c mice were fused with cells from the Sp2/0 myeloma cell line.

Specificity

Mouse anti Hemoglobin subunit zeta antibody, clone 3C4-1D5 recognizes the human embryonic hemoglobin zeta chain, also known as Zeta-globin, HBAZ or Hb-ζ. Hemoglobin zeta is a 141 amino acid ~14 kDa alpha-type hemoglobin chain present in early embryonic erythrocytes, forming part of the active tetrameric oxygen binding hemoglobin units Gower-1 (ζ2:γ2) Portland-1 (ζ2:ε2) and Portland-2 (ζ2:β2). Gower-2 hemoglobin does not contain any zeta components (α2:ε2) ([Manning et al. 2007](#)). Portland-2 hemoglobin containing 2ζ chains is associated with homozygous alpha thalassemia ([Li et al. 2010](#)).

Storage

Store at -20°C only.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch
