

Datasheet: MCA3212Z

BATCH NUMBER 170116

Description:	MOUSE ANTI HUMAN KCNA3:Preservative Free
Specificity:	KCNA3
Format:	Preservative Free
Product Type:	Monoclonal Antibody
Clone:	1D8
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	■			0.1 - 10 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Approx. Protein Concentrations	Ig concentration 0.5 mg/ml
Immunogen	Recombinant protein corresponding to aa 424-523 of human KCNA3
External Database Links	UniProt:

Entrez Gene:

[3738](#) KCNA3 [Related reagents](#)

Synonyms	HGK5
RRID	AB_2265087
Fusion Partners	Spleen cells from BALB/c mice were fused with cells from the Sp2/0 myeloma cell line.
Specificity	Mouse anti Human KCNA3 antibody, clone 1D8 recognizes human Potassium voltage-gated channel subfamily A member 3, also known as KCNA3, HGK5, HLK3, HPCN3, Voltage-gated K(+) channel HuKIII or Voltage-gated potassium channel subunit Kv1.3. KCNA3 is a 575 amino acid ~60 kDa multi pass transmembrane glycoprotein involved in mediation of voltage dependent potassium ion permeability of excitable membranes.
Storage	Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10162 available at: https://www.bio-rad-antibodies.com/SDS/MCA3212Z 10162
Regulatory	For research purposes only
