

Datasheet: MCA3532Z

Description:	MOUSE ANTI HUMAN UBE3A:Preservative Free
Specificity:	UBE3A
Other names:	E6AP
Format:	Preservative Free
Product Type:	Monoclonal Antibody
Clone:	2F6
Isotype:	IgG2a
Quantity:	0.1 mg

Product Details

RRID AB_2211795

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	▪			0.1 - 10 ug/ml
Western Blotting	▪			
Immunofluorescence	▪			0.1 - 10 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)This product requires antigen retrieval using heat treatment prior to staining of paraffin sections.Sodium citrate buffer pH 6.0 is recommended for this purpose.

Target Species Human

Product Form Purified IgG - liquid

Preparation Purified IgG prepared by affinity chromatography on Protein A

Buffer Solution Phosphate buffered saline

Preservative Stabilisers None present

Approx. Protein Concentrations Ig concentration 0.5 mg/ml

Immunogen Recombinant protein corresponding to aa 51-151 of human UBE3A

Synonyms

E6AP, EPVE6AP, HPVE6A

Fusion Partners

Spleen cells from immunized Balb/c mice were fused with cells from the Sp2/0 myeloma cell line.

Specificity

Mouse anti Human UBE3A antibody, clone 2F6 recognizes human Ubiquitin-protein ligase E3A, also known as UBE3A, E6AP ubiquitin-protein ligase, Human papillomavirus E6-associated protein, Oncogenic protein-associated protein E6-AP or Renal carcinoma antigen NY-REN-54. UBE3A is an 875 amino acid ~95 kDa E3 ubiquitin-protein ligase.

Mutations of the UBE3A gene can lead to the development of Angelman syndrome ([AS](#)) a neurodevelopmental disorder characterized by severe motor and intellectual retardation, hypotonia, ataxia and jerky limb movements ([Sadikovic et al. 2014](#)).

Storage

Store at -20°C only.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

18 months from date of despatch.

**Health And Safety
Information**

Material Safety Datasheet documentation #10162 available at:
