

Datasheet: MCA408S

BATCH NUMBER 158903

Description:	RAT ANTI MBP (aa36-50)
Specificity:	MBP (aa36-50)
Other names:	MYELIN BASIC PROTEIN
Format:	S/N
Product Type:	Monoclonal Antibody
Clone:	14
Isotype:	IgG2b
Quantity:	2 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen (1)	▪			
Immunohistology - Paraffin		▪		
ELISA	▪			
Immunoprecipitation			▪	
Western Blotting			▪	
Immunofluorescence	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)The epitope recognised by this antibody is reported to be sensitive to formaldehyde fixation and tissue processing. Bio-Rad recommends the use of acetone fixation for frozen sections.

Target Species	Bovine
Species Cross Reactivity	<p>Reacts with: Human</p> <p>Based on sequence similarity, is expected to react with:Chicken, Horse</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or</p>

personal communications from the originators. Please refer to references indicated for further information.

Product Form	Tissue Culture Supernatant - liquid
Buffer Solution	0.1M TRIS
Preservative Stabilisers	0.09% Sodium Azide
Immunogen	Bovine myelin basic protein
External Database Links	UniProt: P02687 Related reagents Entrez Gene: 618684 MBP Related reagents
RRID	AB_325007
Fusion Partners	Spleen cells from immunised outbred rats were fused with cells of the mouse NS0 myeloma cell line.
Specificity	Rat anti MBP antibody, clone 14 recognizes myelin basic protein (MBP), a component of myelin that is believed to play a role in the myelination of nerves in the central nervous system. Rat anti MBP antibody, clone 14 has also been reported to work in western blotting (Relucio et al. 2009).

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee 12 months from date of despatch
