

Datasheet: MCA4665A488

Description:	MOUSE ANTI HUMAN CD336:Alexa Fluor® 488
Specificity:	CD336
Other names:	NKp44
Format:	ALEXA FLUOR® 488
Product Type:	Monoclonal Antibody
Clone:	3.43
Isotype:	IgG1
Quantity:	100 TESTS/1ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human		
Product Form	Purified IgG conjugated to Alexa Fluor 488 - liquid		
Max Ex/Em	Fluorophore	Excitation Max (nm)	Emission Max (nm)
	Alexa Fluor®488	495	519
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant		
Buffer Solution	Phosphate buffered saline		
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin		
Approx. Protein Concentrations	IgG concentration 0.05mg/ml		

Immunogen CD336-human crystallizable Fc fusion protein.

Specificity

Mouse anti Human CD336 antibody, clone 3.43 recognizes human CD336, otherwise known as NKp44 (natural killer cell p44-related protein). CD336 is a 255 amino acid ~44 kDa type I transmembrane glycoprotein and member of the natural cytotoxicity receptor (NCR) family, involved in NK cell recognition of tumour target cells during natural cytotoxicity responses.

CD336 is selectively expressed by IL-2 activated human NK cells, and associates via its transmembrane region with DNAX activation protein 12 (DAP12), an ITAM containing adaptor protein, essential for the cell surface expression of CD336 and for the transduction of intracellular signalling. CD336 is also expressed on a minor subset of TCR gamma/delta cells, and by a subset of natural interferon-producing cells (IPCs) when activated by IL-3.

Flow Cytometry

Use 10ul of the suggested working dilution to label 1×10^6 cells in 100ul.

Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. This product is photosensitive and should be protected from light. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

18 months from date of despatch.

Acknowledgements

This product is provided under an intellectual property licence from Life Technologies Corporation. The transfer of this product is contingent on the buyer using the purchase product solely in research, excluding contract research or any fee for service research, and the buyer must not sell or otherwise transfer this product or its components for (a) diagnostic, therapeutic or prophylactic purposes; (b) testing, analysis or screening services, or information in return for compensation on a per-test basis; (c) manufacturing or quality assurance or quality control, or (d) resale, whether or not resold for use in research. For information on purchasing a license to this product for purposes other than

as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad CA 92008 USA or outlicensing@thermofisher.com
