Datasheet: MCA469B BATCH NUMBER 151022

Description:MOUSE ANTI HUMAN CD9:BiotinSpecificity:CD9Other names:MRP-1Format:BiotinProduct Type:Monoclonal AntibodyClone:MM2/57Isotype:IgG2bQuantity:0.1 mg
Other names:MRP-1Format:BiotinProduct Type:Monoclonal AntibodyClone:MM2/57Isotype:IgG2b
Format:BiotinProduct Type:Monoclonal AntibodyClone:MM2/57Isotype:IgG2b
Product Type:Monoclonal AntibodyClone:MM2/57Isotype:IgG2b
Clone: MM2/57 Isotype: IgG2b
Isotype: IgG2b
Quantity: 0.1 mg

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .					
		Yes	No	Not Determined	Suggested Dilution	
	Flow Cytometry	•			Neat - 1/5	
	Immunohistology - Frozen					
	Immunohistology - Paraffin			•		
	Where this antibody has not been tested for use in a particular technique this does n necessarily exclude its use in such procedures. Suggested working dilutions are give a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.					
Target Species	Human					
Species Cross	Depate with Cat Dhaaw

Buffer Solution	Phosphate buffered saline				
Preservative Stabilisers	0.09% Sodium Azide 1% Bovine Serum Albumin				
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml				
Immunogen	Human platelet membranes				
External Database Links	UniProt: P21926 Related reagents Entrez Gene: 928 CD9 Related reagents				
Synonyms	MIC3, TSPAN29				
RRID	AB_323912				
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells from the SP2/0 mouse myeloma line				
Specificity	Mouse anti Human CD9 antibody, clone MM2/57 recognizes human leukocyte antigen MIC3 also known as MRP-1 or CD9. CD9 is a 228 amino acid multi pass membrane glycoprotein belonging to the tetraspanin family with a molecular weight of ~24 kDa expressed by platelets, monocytes, some lymphocytes and endothelial cells. Mouse anti Human CD9 antibody, clone MM2/57 recognizes a conserved epitope on CD9 present on a wide range of mammalian species.				
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 ⁶ cells or 100ul whole blood

Storage	Store at +4°C or at -20°C if preferred. This product should be stored undiluted.
	Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/MCA469B 10041
Regulatory	For research purposes only
