

## Datasheet: MCA4709T

|                      |                       |
|----------------------|-----------------------|
| <b>Description:</b>  | RAT ANTI MOUSE CD202b |
| <b>Specificity:</b>  | CD202b                |
| <b>Other names:</b>  | TIE-2                 |
| <b>Format:</b>       | Purified              |
| <b>Product Type:</b> | Monoclonal Antibody   |
| <b>Clone:</b>        | TEK4                  |
| <b>Isotype:</b>      | IgG1                  |
| <b>Quantity:</b>     | 25 µg                 |

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

|                            | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry             | ▪   |    |                | 1/10 - 1/20        |
| Immunohistology - Frozen   |     |    | ▪              |                    |
| Immunohistology - Paraffin |     |    | ▪              |                    |
| ELISA                      |     |    | ▪              |                    |
| Immunoprecipitation        |     |    | ▪              |                    |
| Western Blotting           |     |    | ▪              |                    |
| Immunofluorescence         | ▪   |    |                |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

|                                 |  |
|---------------------------------|--|
| <b>Target Species</b>           | Mouse  |
| <b>Product Form</b>             | Purified IgG - liquid                            |
| <b>Preparation</b>              | Purified IgG prepared by affinity chromatography |
| <b>Buffer Solution</b>          | Phosphate buffered saline                        |
| <b>Preservative Stabilisers</b> | <0.1% Sodium Azide (NaN <sub>3</sub> )           |
| <b>Approx. Protein</b>          | IgG concentration 0.5mg/ml                       |

---

#### Specificity

**Rat anti Mouse CD202b antibody, clone TEK4** recognizes mouse CD202, also known as TIE-2 or TEK, a protein-tyrosine kinase transmembrane receptor for angiotensin II. CD202b is expressed in developing vascular endothelial cells and probably regulates endothelial cell proliferation and differentiation and guides the proper patterning of endothelial cells during blood vessel formation. Defects in the gene are associated with venous malformations ([Sato et al. 1995](#)).

---

#### Flow Cytometry

Use 10ul of the suggested working dilution to label  $1 \times 10^6$  cells in 100ul.

---

#### Storage

This product is shipped at ambient temperature. It is recommended to aliquot and store at  $-20^{\circ}\text{C}$  on receipt. When thawed, aliquot the sample as needed. Keep aliquots at  $2-8^{\circ}\text{C}$  for short term use (up to 4 weeks) and store the remaining aliquots at  $-20^{\circ}\text{C}$ .

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

---

#### Guarantee

12 months from date of despatch
