

# Datasheet: MCA48GA BATCH NUMBER 1610

Description:	MOUSE ANTI RAT CD8 ALPHA
Specificity:	CD8 ALPHA
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	OX-8
lsotype:	lgG1
Quantity:	0.1 mg

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.					
		Yes	No	Not Determined	Suggested Dilution	
	Flow Cytometry				1/100	
	Immunohistology - Frozen	-				
	Immunohistology - Paraffin	-				
	ELISA			•		
	Immunoprecipitation	-				
	Where this antibody has necessarily exclude its us a guide only. It is recomn system using appropriate	se in such nended th	n procedur at the use	es. Suggested working the antibody	ng dilutions are given as	
Target Species	Rat					
Product Form	Purified IgG - liquid					
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant.			om tissue culture		
Buffer Solution	Phosphate buffered saline					
Preservative Stabilisers	0.09% Sodium Azide					
Carrier Free	Yes					

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml			
Immunogen	Rat thymocyte membrane glycoproteins.			
External Database Links	UniProt: <u>P07725</u> <u>Related reagents</u> Entrez Gene: <u>24930</u> Cd8a <u>Related reagents</u>			
RRID	AB_566918			
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse NS1 myeloma cell line.			
Specificity	ecificity Mouse anti Rat CD8α, clone MRC OX-8, recognizes the rat CD8 alpha cell surface antigen, expressed by a subset of T lymphocytes, most thymocytes and the majority of cells.			
	Mouse anti Rat CD8α, clone MRC OX-8 is suitable for use in <i>in vitro</i> blocking studies ( <u>Popov <i>et al.</i>2001</u> ).			
	Mouse anti Rat CD8α, clone MRC OX-8 has been described reacting with paraffin- embedded material following PLP Fixation (periodate-lysine paraformaldehyde) ( <u>Whiteland</u> <u>et al. 1995</u> ).			
	Mouse anti Rat CD8 $\alpha$ , clone MRC OX-8 is routinely tested in flow cytometry on rat splenocytes.			
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells in 100ul.			
Immunohistology	This product does not require protein digestion pre-treatment of paraffin embedded sections. This product does not require antigen retrieval using heat treatment prior to staining of paraffin embedded sections.

**Storage** Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

	Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA48GA 10040
Regulatory	For research purposes only
