

# Datasheet: MCA48PE BATCH NUMBER 0315

| Description:  | MOUSE ANTI RAT CD8 ALPHA:RPE |
|---------------|------------------------------|
| Specificity:  | CD8 ALPHA                    |
| Format:       | RPE                          |
| Product Type: | Monoclonal Antibody          |
| Clone:        | OX-8                         |
| Isotype:      | lgG1                         |
| Quantity:     | 100 TESTS                    |

# **Product Details**

| Applications                | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> . |                              |                      |  |                          |  |  |
|-----------------------------|--|------------------------------|----------------------|--|--------------------------|--|--|
|                             |  | Yes                          | No                   | Not Determined                                     | Suggested Dilution       |  |  |

| Fusion Partners              | Spleen cells from immunised BALB/c mice were fused with cells of the mouse NS1 myeloma cell line.   |  |  |  |
| Specificity                  | Mouse anti Rat CD8α, clone MRC OX-8, recognizes the rat CD8 alpha cell surface antigen, expressed by a subset of T lymphocytes, most thymocytes and the majority of cells.  |  |  |  |
|                              | Mouse anti Rat CD8α, clone MRC OX-8 is suitable for use in <i>in vitro</i> blocking assays ( <u>Popov <i>et al.</i>2001</u> ).  |  |  |  |
|                              | Mouse anti Rat CD8α, clone MRC OX-8 reacts with paraffin-embedded material following PLP Fixation (periodate-lysine paraformaldehyde) ( <u>Whiteland <i>et al.</i> 1995</u> ).  |  |  |  |
|                              | Mouse anti Rat CD8α, clone MRC OX-8 is routinely tested in flow cytometry on rat splenocytes.   |  |  |  |
|                              |   |  |  |  |
| Flow Cytometry               | Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells in 100ul  |  |  |  |
