

Datasheet: MCA4978Z

Description:	MOUSE ANTI HUMAN SPI1:Preservative Free
Specificity:	SPI1
Format:	Preservative Free
Product Type:	Monoclonal Antibody
Clone:	2G1
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			0.1 - 10 ug/ml
Immunofluorescence	▪			0.1 - 10 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	Reacts with: Mouse N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Approx. Protein Concentrations	Ig concentration 0.5 mg/ml
Immunogen	Recombinant protein corresponding to aa 1 - 121 of human SPI1.

Fusion Partners	Spleen cells from BALB/c mice were fused with cells from the Sp2/0 myeloma cell line.
------------------------	---

Specificity	Mouse anti Human SPI1 antibody, clone 2G1 recognizes human Transcription factor PU.1, also known as SPI1 or 31 kDa-transforming protein. SPI1 is a 270 amino acid ~30 kDa DNA binding protein. Two isoforms of SPI1 generated by alternative splicing have been described, with isoform 2 differing from isoform 1 by a single amino acid insertion at position 16 (UniProt : P17947). Mouse anti Human SPI1 antibody, clone 2G1 binds to the canonical isoform 1 but binding to isoform 2 has not been evaluated.
--------------------	---

Storage	Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
