

Datasheet: MCA5404Z

Description:	MOUSE ANTI HUMAN CD172a:Preservative Free
Specificity:	CD172a
Other names:	SIRP ALPHA
Format:	Preservative Free
Product Type:	Monoclonal Antibody
Clone:	4C7
Isotype:	IgG2a
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			0.1 - 10 ug/ml
Immunofluorescence	▪			0.1 - 10 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Mouse</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A from ascites
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present

Approx. Protein Concentrations	Ig concentration 0.5 mg/ml
Immunogen	Recombinant protein corresponding to aa 28-508 of human CD172a.
External Database Links	<p>UniProt: P78324 Related reagents</p> <p>Entrez Gene: 140885 SIRPA Related reagents</p>
Synonyms	BIT, MFR, MYD1, PTPNS1, SHPS1, SIRP
RRID	AB_2270317
Fusion Partners	Spleen cells from BALB/c mice were fused with cells from the Sp2/0 myeloma cell line.
Specificity	<p>Mouse anti Human CD172 antibody, clone 4C7 recognizes human Tyrosine-protein phosphatase non-receptor type substrate 1, also known as Brain Ig-like molecule with tyrosine-based activation motifs, CD172 antigen-like family member A, Inhibitory receptor SHPS-1, Macrophage fusion receptor, MyD-1 antigen, Signal-regulatory protein alpha-1, Signal-regulatory protein alpha-2, Signal-regulatory protein alpha-3, p84 or CD172a. CD172a is a 474 amino acid, with an additional 30 amino acid signal peptide ~48 kDa single pass type 1 transmembrane glycoprotein and cell surface receptor for CD47.</p> <p>Three isoforms of CD172a produced by alternative splicing have been described. Mouse anti Human CD172 antibody, clone 4C7 binds the canonical isoform 1. Binding to other isoforms has not been established (UniProt : P78324).</p>
Storage	<p>Store at -20°C only.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10162 available at: https://www.bio-rad-antibodies.com/SDS/MCA5404Z 10162
Regulatory	For research purposes only
