

Datasheet: MCA5542Z

BATCH NUMBER 161835

Description:	MOUSE ANTI HUMAN IL-1 BETA:Preservative Free
Specificity:	IL-1 BETA
Format:	Preservative Free
Product Type:	Monoclonal Antibody
Clone:	2E8
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunofluorescence	▪			0.1 - 10 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Approx. Protein Concentrations	Ig concentration 0.5 mg/ml
Immunogen	Recombinant protein corresponding to aa 1-270 of human IL-1 beta.

Synonyms	IL1F2
-----------------	-------

RRID	AB_2248959
-------------	------------

Fusion Partners	Spleen cells from BALB/c mice were fused with cells from the Sp2/0 myeloma cell line.
------------------------	---

Specificity	Mouse anti Human IL-1 beta, clone 2E8 recognizes human interleukin-1 β , also known as catabolin. IL-1 β is a 153 amino acid ~18 kDa with an additional 116 propeptide region, cleaved in the mature form. IL-1 β is a potent proinflammatory cytokine released by activated macrophages as a ~35 proprotein which is then cleaved by caspase-1 to yield the active cytokine (Andrei <i>et al.</i> 2004).
--------------------	--

Storage	Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10162 available at: https://www.bio-rad-antibodies.com/SDS/MCA5542Z 10162
--------------------------------------	---

Regulatory	For research purposes only
-------------------	----------------------------
