

Datasheet: MCA567

BATCH NUMBER 1610

Description:	MOUSE ANTI GUINEA PIG B CELL SUBSET
Specificity:	B CELL SUBSET
Format:	S/N
Product Type:	Monoclonal Antibody
Clone:	MsGp10
Isotype:	IgG1
Quantity:	2 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			
Immunohistology - Frozen	▪			
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting			▪	

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species	Guinea Pig
Product Form	Tissue Culture Supernatant - liquid
Preparation	Tissue Culture Supernatant containing 0.2M Tris/HCl pH7.2
Preservative Stabilisers	0.09% Sodium Azide
Immunogen	Guinea pig splenic dendritic cells.
RRID	AB_321191
Fusion Partners	Spleen cells from an immunised BALB/c mice were fused with cells of the mouse NS1

myeloma cell line.

Specificity **Mouse anti Guinea pig B cell subset antibody, clone MsGp10** recognizes a target expressed on the surface of mantle zone B cells in the lymph node and on follicular dendritic cells. It detects approximately 30% of lymph node lymphocytes and 50% of Ig positive cells although it does not recognise immunoglobulin. It does not recognise T cells or thymocytes but is expressed on kidney epithelia cells and some macrophages.

Flow Cytometry Use 10ul of the suggested working dilution to label 10^6 cells in 100ul.

Storage Store at +4°C for one month or at -20°C for longer.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
