

## Datasheet: MCA5719G

**BATCH NUMBER 250815**

<b>Description:</b>	MOUSE ANTI METHAMPHETAMINE
<b>Specificity:</b>	METHAMPHETAMINE
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	ME3B9
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	1 mg

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Immunoassay	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Chemical
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> )
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0 mg/ml
<b>RRID</b>	AB_10846825

<b>Specificity</b>	<b>Mouse anti Methamphetamine antibody, clone ME3B9</b> recognizes methamphetamine, a central nervous system stimulant that triggers the release of dopamine and norepinephrine in the brain. It has significant enhancing effects on the mood and energy. Medically, methamphetamine is used to treat attention deficit hyperactivity disorder, obesity and narcolepsy. Side-effects may include anorexia, restlessness, arrhythmias, heart attack or stroke.  Methamphetamine is addictive and tolerance develops quickly. Users might also use sedatives to ease anxiety and trouble sleeping. Addiction is difficult to treat, with withdrawal symptoms such as anxiety, excessive sleeping, eating and depression. Relapse rates are high.
<b>Intended Use</b>	Bio-Rad recommends that the user determines this product's suitability for any particular application.
<b>Storage</b>	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
<b>Guarantee</b>	12 months from date of despatch
<b>Health And Safety Information</b>	Material Safety Datasheet documentation #10040 available at: <a href="https://www.bio-rad-antibodies.com/SDS/MCA5719G">https://www.bio-rad-antibodies.com/SDS/MCA5719G</a> 10040
<b>Regulatory</b>	For research purposes only
