

Datasheet: MCA5830G

BATCH NUMBER 0112R

Description:	MOUSE ANTI HUMAN GROWTH HORMONE
Specificity:	GROWTH HORMONE
Other names:	SOMATOTROPIN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	5B4
Isotype:	IgG2a
Quantity:	1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			1/5000 - 1/50000
Immunoprecipitation			▪	
Western Blotting			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Does not react with: Bovine, Pig

Reacts weakly with: Horse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant

Buffer Solution Phosphate buffered saline

Preservative Stabilisers 0.09% Sodium Azide (NaN₃)

Carrier Free Yes

Approx. Protein Concentrations IgG concentration 1.0mg/ml

Specificity **Mouse anti hGH, Clone 5B4**, recognises human growth hormone, also known as somatotropin, a polypeptide synthesised by acidophilic or somatotropic cells of the anterior pituitary gland. It exists as several isoforms, including a ~20 kDa and ~22 kDa variant. Growth hormone plays an important role in growth and cell production.

Cross reactivity profile:

Compound	Reactivity
Human growth hormone 22 kDa	100%
Human placental growth hormone	100%
Human growth hormone 20 kDa	50%
Methionyl human growth hormone	0.5%
Growth hormone receptor	0.3%
Human placental lactogen	0.002%
Human thyroid stimulating hormone	0%
Human chorionic gonadotropin	0%
Human luteinizing hormone	0%
Human follicle stimulating hormone	0%
Human prolactin	0%
Horse growth hormone	0.007%
Bovine growth hormone	0%
Pig growth hormone	0%

Storage	<p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	<p>Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA5830G</p> <p>10040</p>
Regulatory	For research purposes only
