

Datasheet: MCA5861G

BATCH NUMBER 0112R

| | |
|----------------------|------------------------------------|
| Description: | MOUSE ANTI HUMAN ALPHA FETOPROTEIN |
| Specificity: | ALPHA FETOPROTEIN |
| Other names: | AFP |
| Format: | Purified |
| Product Type: | Monoclonal Antibody |
| Clone: | 125.7A2 |
| Isotype: | IgG1 |
| Quantity: | 1 mg |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry | | | ▪ | |
| Immunohistology - Frozen | | | ▪ | |
| Immunohistology - Paraffin | | | ▪ | |
| ELISA | ▪ | | | 5µg/ml |
| Immunoprecipitation | | | ▪ | |
| Western Blotting | | | ▪ | |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| | |
|---------------------------------|---|
| Target Species | Human |
| Product Form | Purified IgG - liquid |
| Preparation | Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant |
| Buffer Solution | Phosphate buffered saline |
| Preservative Stabilisers | 0.09% Sodium Azide (NaN ₃) |

| | |
|---------------------------------------|---|
| Carrier Free | Yes |
| Approx. Protein Concentrations | IgG concentration 1.0 mg/ml |
| External Database Links | <p>UniProt: P02771 Related reagents</p> <p>Entrez Gene: 174 AFP Related reagents</p> |
| Synonyms | HPAFP |
| Specificity | <p>Mouse anti Human alpha fetoprotein antibody, clone 125.7A2 is a monoclonal antibody recognizing alpha fetoprotein (AFP), a member of the albuminoid protein superfamily, along with albumin and vitamin D binding protein. Members of the albuminoid superfamily comprise molecules with three characteristic globular domains (Mizejewski 1995).</p> <p>AFP is a ~70kD plasma protein found in fetuses over four weeks old, produced by the yolk sac and the fetal liver, with the highest concentration reached during the 12th to 16th week of gestation. AFP acts as a transport protein for various ligands such as bilirubin, fatty acids, steroids and heavy metals. After birth, plasma AFP levels drop rapidly with only trace amounts remaining in healthy adults. Changes in plasma levels of AFP have been documented in a variety of cancers including hepatocellular cancer (Sato et al. 1993).</p> <p>Mouse anti Human alpha fetoprotein antibody, clone 125.7A2 shows <0.1% reactivity with human serum albumin and IgG. Strong expression of AFP has been noted in the hepatic cell line HepG2.</p> |
| Storage | <p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p> |
| Guarantee | 12 months from date of despatch |
| Health And Safety Information | <p>Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA5861G 10040</p> |
| Regulatory | For research purposes only |
