

# Datasheet: MCA5954PE BATCH NUMBER INN1114

Description:	MOUSE ANTI PIG CD8 BETA CHAIN:RPE
Specificity:	CD8 BETA
Format:	RPE
Product Type:	Monoclonal Antibody
Clone:	PPT23
Isotype:	lgG1
Quantity:	100 TESTS

# **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal						
	communications from the originators. Please refer to references indicated for further						
	information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.						
		Yes	No	Not Determined	Suggested Dilution		
	Flow Cytometry	•			Neat		
	Where this product has	s not been te	ested for	use in a particular tech	inique this does not		
	necessarily exclude its a guide only. It is recor system using appropria	mmended th	at the us	er titrates the product for	g dilutions are given as or use in their own		
Target Species	Pig						
Product Form	Purified IgG conjugated to R. Phycoerythrin (RPE) - lyophilized						
Reconstitution	Reconstitute with 1 ml distilled water						
Max Ex/Em	Fluorophore	Excitation M	lax (nm)	Emission Max (nm)			
	RPE 488nm laser	496	• •	578			
Preparation	Purified IgG prepared by affinity chromatography on Protein A						
Buffer Solution	Phosphate buffered saline						
Preservative	0.09% Sodium Azide (I	NaN <sub>3</sub> )					
Stabilisers	1% Bovine Serum Albu	0,					
	5% Sucrose						

Immunogen	Porcine thymus membrane lysate					
Fusion Partners	Lymph node cells from immunized BALB/c mice were fused with cells of the NSO myeloma cell line					
Specificity	Mouse anti Pig CD8 beta chain, clone PPT23, recognizes the porcine homologue of the human CD8 beta chain cell surface antigen.					
	Characterization of clone PPT23, also known under the clone designation FYP1C5, has demonstrated that on peripheral blood lymphocytes and spleen, this antibody binds to cells that are CD3 <sup>+</sup> , CD4 <sup>-</sup> , CD8 <sup>hi</sup> and as such defines this antibody as a specific marker of porcine $\alpha/\beta$ T cells, in thymic tissue both CD8 <sup>lo</sup> and CD8 <sup>hi</sup> cells are recognized ( <u>Yang &amp; Parkhouse 1997</u> ). Mouse anti Pig CD8 beta chain, clone PPT23 recognizes a different epitope on the CD8 beta chain to clone PPT22.					
Flow Cytometry	Use 10ul of the suggested working dilution to label $1 \times 10^{6}$ cells in 100ul

Storage	Store at +4 <sup>o</sup> C. DO NOT FREEZE. This product should be stored undiluted. This product is photosensitive and should be protected from light.					
Guarantee	12 months from date of despatch					
Health And Safety Information	Material Safety Datasheet documentation #20487 available at: https://www.bio-rad-antibodies.com/SDS/MCA5954PE 20487					
Regulatory	For research purposes only
