

Datasheet: MCA6004A647

## **BATCH NUMBER 155005**

| Description:  | RAT IgG1 NEGATIVE CONTROL:Alexa Fluor® 647 |
|---------------|--|
| Specificity:  | RAT IgG1 NEGATIVE CONTROL                  |
| Format:       | ALEXA FLUOR® 647                           |
| Product Type: | Negative/Isotype Control                   |
| Isotype:      | lgG1                                       |
| Quantity:     | 100 TESTS/1ml                              |
|               |  |

## **Product Details**

## **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                | Yes | No | Not Determined | <b>Suggested Dilution</b> |
|----------------|-----|----|----------------|---------------------------|
| Flow Cytometry | -   |    |                | *                         |

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. \*This antibody should be used at the same concentration as the test antibody.

| Target Species                    | Negative Control    |   |                  |    |  |  |
|-----------------------------------|---------------------|---|------------------|----|--|--|
| Product Form                      | Purified IgG conjug | Purified IgG conjugated to Alexa Fluor® 647 - liquid  |                  |    |  |  |
| Max Ex/Em                         | Fluorophore         | Excitation Max (nm)   | Emission Max (nm | 1) |  |  |
|                                   | Alexa Fluor®647     | 650   | 665              |    |  |  |
| Preparation                       | Purified IgG prepar | Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant |                  |    |  |  |
| Buffer Solution                   | Phosphate buffered  | Phosphate buffered saline   |                  |    |  |  |
| Preservative                      | 0.09% Sodium Azi    | de (NaN <sub>3</sub> )  |                  |    |  |  |
| Stabilisers                       | 1% Bovine Serum     | Albumin   |                  |    |  |  |
| Approx. Protein<br>Concentrations | IgG concentration   | 0.05 mg/ml  |                  |    |  |  |
| Immunogen                         | Horseradish peroxi  | dase  |                  |    |  |  |

| Specificity                      | Rat IgG1 negative control, a rat monoclonal raised against he recommended for use as a negative control to assess the lever rat IgG1 test antibodies to the surface of human and mouse control to a second recommendation of the surface of human and mouse control to the surface of huma | el of non-specific binding of ells in flow cytometry.   |
|----------------------------------|--|---|
|                                  | Test results have shown that this antibody is also suitable for unwith porcine and canine cells.   | use as a negative control   |
| Flow Cytometry                   | Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells in   | 100ul.  |
| Storage                          | Store at +4°C or at -20°C if preferred.  Avoid repeated freezing and thawing as this may denature the frost-free freezers is not recommended. This product should be product is photosensitive and should be protected from light. Some precipitate we recommend microcentrifugation before use.   | e stored undiluted. This  |
| Guarantee                        | 12 months from date of despatch  |   |
| Acknowledgements                 | This product is provided under an intellectual property licence Corporation. The transfer of this product is contingent on the beginning product solely in research, excluding contract research or any and the buyer must not sell or otherwise transfer this product of diagnostic, therapeutic or prophylactic purposes; (b) testing, a services, or information in return for compensation on a per-teror quality assurance or quality control, or (d) resale, whether or research. For information on purchasing a license to this product as described above, contact Life Technologies Corporation, 57 CA 92008 USA or outlicensing@thermofisher.com  | fee for service research, or its components for (a) nalysis or screening st basis; (c) manufacturing or not resold for use in uct for purposes other than |
