

Datasheet: MCA609GT

BATCH NUMBER 1701

Description:	RAT ANTI MOUSE CD8 ALPHA		
Specificity:	CD8 ALPHA		
Other names:	LY-2		
Format:	Purified		
Product Type:	Monoclonal Antibody		
Clone:	KT15		
Isotype:	lgG2a		
Quantity:	25 μg		

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry				1/50 - 1/100
Immunohistology - Frozen (1)	•			
Immunohistology - Paraffin				
ELISA				
Immunoprecipitation			•	
Western Blotting			•	
Immunofluorescence	-			
Functional Assays				

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

(1)The epitope recognised by this antibody is reported to be sensitive to formaldehyde fixation and tissue processing. Bio-Rad recommends the use of acetone fixation for frozen sections.

Target Species	Mouse
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G from

supernatant

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide
Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1 mg/ml
Immunogen	T cell clone, C6
External Database Links	UniProt: P01731 Related reagents Entrez Gene:
•	12525 Cd8a Related reagents
Synonyms	Lyt2, Lyt-2
RRID	AB_1102371
Fusion Partners	Spleen cells from immunized SD rats were fused with cells of the NS0 mouse myeloma cell line
Specificity	Rat anti mouse CD8α, clone KT15, recognizes the alpha chain of mouse CD8. CD8 is a heterodimeric protein composed of disulphide-linked CD8α and CD8β chains that is expressed primarily on cytotoxic T-cells. CD8 functions in the interaction with MHC Class I-bearing targets and plays a role in T-cell-mediated killing (Nakauchi, H. et al., 1985) & Nakauchi, H. et al., 1987).
	Clone KT15 is reported to block T-cell-mediated cytotoxicity in <i>in vitro</i> assays (<u>Zeis, M. et al., 2002</u>).
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 ⁶ cells in 100ul.

Storage Store at +4°C for one month or at -20°C for longer.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we

recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
