

## Datasheet: MCA6105

**BATCH NUMBER 154284**

<b>Description:</b>	HUMAN ANTI IgE (OMALIZUMAB BIOSIMILAR)
<b>Specificity:</b>	IgE
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	huMaE11
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	0.2 mg

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Human
<b>Product Form</b>	Human IgG1 (kappa) antibody - liquid
<b>Preparation</b>	Purified recombinant IgG prepared by affinity chromatography on Protein A from a mammalian cell line
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.02% Proclin 300
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0 mg/ml
<b>Immunogen</b>	Human IgE protein
<b>Specificity</b>	<b>Human Anti-IgE Antibody</b> , clone huMaE11 is a research grade biosimilar of the

monoclonal antibody drug omalizumab. It is a recombinant human IgG1 kappa antibody with variable regions from the therapeutic antibody omalizumab.

Human Anti-IgE Antibody is for research use only. It is suitable as a reference standard in a pharmacokinetic (PK) bridging ELISA with anti-omalizumab antibodies, for example [HCA235P](#) and [HCA236](#). It can also be used as capture and detection reagent in an anti-drug antibody (ADA) bridging ELISA, with an anti-omalizumab antibody in IgG1 format as reference standard, for example [HCA235](#).

Omalizumab (Xolair) is a recombinant humanized IgG1 kappa monoclonal antibody used in the treatment of patients with moderate or severe asthma. Allergic asthma is mediated by immunoglobulin E (IgE) released by B cells in response to allergen. Circulating IgE binds to the high-affinity IgE Fc receptor (FcεRI) expressed on basophils and mast cells, triggering the release of histamine, leukotrienes and other mediators associated with the pathophysiology of asthma. Omalizumab is directed against the Fc region of human IgE. By binding to circulating IgE at the site of FcεRI binding, this therapeutic antibody prevents the interaction of IgE with its receptor thus limiting mediator release.

This product is NOT FOR THERAPEUTIC USE.

<b>Purity</b>	>98% by SDS PAGE
---------------	------------------

---

<b>Storage</b>	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
