

Datasheet: MCA6243B

**BATCH NUMBER 100005378**

<b>Description:</b>	MOUSE ANTI HUMAN INTERLEUKIN-17A:Biotin
<b>Specificity:</b>	IL-17A
<b>Other names:</b>	CTLA-8
<b>Format:</b>	Biotin
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	F01.1-5D10
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			1.0 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Human
<b>Product Form</b>	Purified IgG conjugated to Biotin - liquid
<b>Preparation</b>	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative</b>	0.09% Sodium Azide (NaN <sub>3</sub> )
<b>Stabilisers</b>	1% Bovine Serum Albumin
<b>Approx. Protein Concentrations</b>	IgG concentration 0.1 mg/ml
<b>Immunogen</b>	<i>E. coli</i> derived recombinant human full length interleukin-17A (Gly24-Ala155)

IL17A

[Related reagents](#)**Synonyms**

CTLA8, IL17

**Fusion Partners**

Cell fusion between immunized BALB/c mouse spleen cells and mouse myeloma SP2/0

**Specificity**

**Mouse anti Human interleukin-17A, clone F01.1-5D10**, recognizes interleukin-17A (IL-17A) also known as cytotoxic T-lymphocyte-associated antigen 8 (CTLA-8).

The IL-17 family consists of six proteins (IL-17A to IL-17F) which function as pro-inflammatory cytokines important in the defense against pathogens ([Gurczynski & Moore 2017](#)). This antibody recognizes IL-17A, the most studied member of the IL-17 family. IL-17A is expressed by various cell types including CD4<sup>+</sup> and CD8<sup>+</sup> T helper cells, neutrophil, natural killer, mast and B cells ([Chen & Kolls 2017](#)). It elicits its responses via the IL-17 receptor, IL-17RA. Activation of this receptor leads to the activation of NF-κB and mitogen-activated protein kinase to then drive the transcriptional activation of target genes which play key roles in inflammation. IL-17A can also signal to stabilize mRNA transcripts, again to enhance the production of genes including those encoding cytokines, chemokines, antimicrobial peptides and other inflammatory effectors. ([Monin & Gaffen 2018](#)). Uncontrolled IL-17A signaling is associated with immunopathology, autoimmune diseases, and cancer, and blocking activity of IL-17A can be beneficial in some clinical settings ([Amatya et al. 2017](#)).

**Storage**

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

**Guarantee**

12 months from date of despatch
