

Datasheet: MCA6309

Description:	RABBIT ANTI CALPONIN 1
Specificity:	CALPONIN 1
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	RM262
Isotype:	IgG
Quantity:	0.1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1000 - 1/2000
Immunocytochemistry	▪			1/100 - 1/200

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography of Protein A from animal origin-free culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative	0.09% Sodium Azide
Stabilisers	1% Bovine Serum Albumin 50% Glycerol
Immunogen	A peptide corresponding to the C-terminus of Human calponin-1
External Database Links	UniProt:

Specificity	Rabbit anti Human calponin 1 antibody recognizes calponin 1, also known as CCN1, basic calponin, Calponin H1, smooth muscle. Calponin 1 mostly expressed in abundance in smooth muscle cells (Liu and Jin 2016). It is a stress fiber-associated protein which co-localizes and stabilizes actin, and regulates contractility in smooth muscle (Ciuba et al. 2018). Decreased levels of calponin-1 may be involved with early hypertension via matrix metalloproteinase-2 (MMP-2) (Belo et al. 2016) Calponin 1 and calponin 2 have been suggested as novel targets for treatment of hypertension (Feng et al. 2020). Calponin 1 appears to function as a tumor suppressor (Mitchell et al. 2020), and has been identified as a protective factor in melanoma, ovarian cancer, renal angiomyolipoma and colon cancer (Qiu et al. 2017). Calponin 1 can also help distinguish benign from invasive breast carcinomas (Mitchell et al. 2020).
Storage	Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10048 available at: https://www.bio-rad-antibodies.com/SDS/MCA6309 10048
Regulatory	For research purposes only
