

Datasheet: MCA6404

Description:	MOUSE ANTI HUMAN GRB10
Specificity:	GRB10
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	E01/5G4
Isotype:	IgG2b
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/10,000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Species Cross Reactivity	<p>Reacts with: Mouse, Rat</p> <p>N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.</p>
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	<i>E. coli</i> -derived recombinant protein, aa 1-282 of human GRB10
External Database Links	<p>UniProt: Q13322 Related reagents</p> <p>Entrez Gene: 2887 GRB10 Related reagents</p>
Synonyms	GRBIR, KIAA0207
Specificity	<p>Mouse anti Human GRB10 antibody recognizes growth-factor receptor bound protein 10, also known as GRB10 adapter protein or Insulin receptor-binding protein Grb-IR.</p> <p>GRB10 is a signal adapter protein involved in a number of cellular processes including growth control, cellular proliferation, and insulin signaling. GRB10 may play a functional role in motor neurons and other neuronal tissues (Plasschaert and Bartolomei, 2015).</p>
Western Blotting	Mouse anti Human GRB10 antibody detects a band of 67 kDa in HepG2 cell lysates
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: 10040: https://www.bio-rad-antibodies.com/uploads/MSDS/10040.pdf
Regulatory	For research purposes only
